

2nd China (Shenyang) International Robot Show

INVITATION

Name:2nd China (Shenyang) International Robot Show

Date: Sep 1-5, 2016

Venue: Shenyang International Exhibition Center

Organization:

Sponsored by: Shenyang Municipal People's Government

Organized by: Shenyang Sub-Council of China Council

for the Promotion of International Trade

Shenyang Commission of Economy and Information

Technology

Hunan District People's Government

Science & Technology Ministry Robot Industry

Technology Innovation Strategy Alliance

Co-sponsored by: Organizing Committee of China International

Equipment Manufacturing Exposition

Shenyang Robot Industry Alliance

Agented by: Qingdao Jinnoc International Exhibition Co.,Ltd.

Schedule:

Move in: Aug 27-31, 2016

Exhibition Date: Sep 1-5, 2016

Move out: Sep 6-7, 2016

Venue opening time:08:00-16:30

Exhibits Range

1.Industrial Robot: industrial robot body; application products and solutions of industrial robot; developing platform and software application of industrial robot; functional accessories and parts of

industrial robot; robot vision, robot work station; intelligence line of production, etc.

2.Service Robot: domestic cleaning robot; entertainment robot; education robot; recovery robot; bionic robot.

3.Special Robot: underwater robot; UVA, etc.

Supporting Activities

1.Press Conference of 2nd International Robot Show will be held in May in Shenyang.

2.Opening Ceremony of 2nd International Robot Show will be held in the morning of Sep 1 in Shenyang International Exhibition Center.

3. 2nd International Robot Show Purchasers Conference will be held on Sep 2-3 in Shenyang International Exhibition Center.

4.Robot Contest will be held on Sep 1-3 in Shenyang International Exhibition Center.

5.Robot Application Show will be held on Sep 1-4 in Shenyang International Exhibition Center.

6.International Robot Performance Contest will be held on Sep 1-4 in Shenyang International Exhibition Center.

7.Shenyang Robot Show Results Conference and Excellent Robot Exhibits Award Ceremony will be held on Sep 4 in Shenyang International Exhibition Center.

Post Review

The first China Shenyang International Robot Show was successfully held on September 1-5, 2015 in Shenyang International Exhibition Center, aiming at speeding up the process of transformation, upgrading and innovation driven of manufacturing industry, promoting the construction of international competitive robot industrial base in Shenyang.

The exhibition area was 13,000 sqms with 572 booths, in which 70 robot manufacturing companies from home and abroad participated, including

KUKA from Germany, ABB from Switzerland, YASKAWA, FANUC, KAWASAKI, NACHI from Japan, Shenyang Xinsong Robot and GSK, etc.. The exhibitors brought excellent equipments and advanced technology idea, which were heavily influenced by the purchasers. Visitors and customers received every day were in an endless stream.

Business Opportunities

Shenyang is an important traditional industrial base, with solid industrial foundation, complete range and huge system. In the request of economic development of China with the core point of transformation, upgrading and innovation-driven, the important traditional industries are at the critical point of transformation and upgrading, such as important machinery, automobile and shipbuilding, aerospace, chemical smelter, defense industry, rail transit, steel, energy, electric power, raw material, transport logistics, etc.. Therefore, industrial robots and other hi-tech intelligent equipments are badly needed to play an supporting, guiding and leading role in all those fields. The main parts of upstream of robot industrial chain, equipment manufacturers in the middle of the chain and users in the end of the industrial chain also need to expand foreign communication and cooperation. This robot show and the 15th China International Equipment Manufacturing Exposition will be held at the same time, which is elaborately organized and carefully arranged for exhibitors to meet their requests of cooperation opportunity.

Mean Measures for the Success of the Show

1. Carefully arrange advertisements by all kinds of news and media. We will comprehensively, versatilely and deeply cover our news on CCTV, Xinhua News Agency, China Industry News, "Equipment Manufacturing" magazine, Liaoning Daily, Liaoning TV, Shenyang Daily News, Shenyang TV, Huashang Morning Newspaper, www.nen.com.cn,

www.163.com, www.sina.com, www.qq.com, www.sohu.com and other over 100 professional and mass media.

2. Professional teams work to invite buyers and technicians to visit and negotiate. Major Invitee: domestic and foreign users from the industry of equipment manufacturing, aerospace, rail transit, auto and shipbuilding, defence military, mold, instrument and meter, etc.; visiting groups from industrial park, industrial base from all over China.

Value-added Services

1. Products information release service. Samples and pictures of exhibitors' products will be released in advance on official website, professional media, show newspaper, wechat, microblog to the benefit of communicating with potential users.

2. "Show Guide" information release service. We will edit company and products information of the exhibitors who apply before June 30th 2016 in our "Show Guide". The "Show Guide" will be delivered to the professional purchasers and visitors on site or by post, which will make for potential buyers knowing of exhibitors' information and finding relevant exhibitors' booths directly.

Exhibition Fee:

Standard Booth: 2000USD/9m²

Bareground: 200USD/m² (above 36m²)
